

Access to Information Act

**Canada Foundation for Innovation
Annual Report to Parliament
April 1, 2009 – March 31, 2010**

Introduction

The Canada Foundation for Innovation (CFI) is an independent corporation created by the Government of Canada to fund research infrastructure. The CFI's mandate is to strengthen the capacity of Canadian universities, colleges, research hospitals, and non-profit research institutions to carry out world-class research and technology development that benefits Canadians. Since its creation in 1997, CFI investments have led to breakthroughs across the full spectrum of science including health, natural resources and energy, information and communications technology, and the environment.

The infrastructure funded by the CFI includes state-of-the-art equipment, laboratories, databases, and the buildings necessary to conduct research. CFI-funded infrastructure fosters collaboration among the academic, private, public, and non-profit sectors in a wide range of research projects. Although the CFI is not alone in supporting innovation in Canada, it is the only national organization focused on providing the infrastructure required to conduct research.

The CFI supports national S&T objectives and strengthens Canada's capacity for innovation by:

- supporting economic growth and job creation, as well as health and environmental quality through innovation;
- increasing Canada's capability to carry out important world-class scientific research and technology development;
- expanding research and job opportunities for young Canadians;
- promoting productive networks and collaboration among Canadian postsecondary educational institutions, research hospitals, and the private sector.

2009-2010 Activity

This marks our third year of officially being subject to the *Access to Information Act* (ATIA). From its inception in 1997, the CFI has followed the spirit of the ATIA with respect to requests for information. Thus the principles of openness, transparency and public accountability, which are central to the ATIA, are deeply embedded within the culture at CFI.

During the last year, the CFI received one request for information under the ATIA which was completed within the 30 day response period and within this reporting period. In addition, CFI responded to three ATIA consultations received from other federal institutions related to requests they were processing. In March 2010, we received notice from the Office of the Information Commissioner of Canada(OIC) that they had finished investigating a complaint that had been made in connection with a request made to CFI in 2007. We are happy to report that the OIC's investigation concluded that the complaint was not substantiated.

ATIP Office and Reporting Structure

The Vice-President of Finance and Corporate Services has overall delegated responsibility for the administration of the ATIP laws within CFI. The day-to-day activities and operations related to the Act are coordinated by the Director of Corporate Services who reports directly to this Vice-President. The Director is assisted by the Manager of Administration and by an external consultant, who has expertise on Access and Privacy issues within the context of the research environment. Effectively, these CFI officials collaborate part-time to manage a small ATIP office with the following role and mandate:

- responding to formal ATIA requests and consultations;
- promoting awareness of the Act within the CFI through timely communications, training sessions, new staff orientation sessions, regular staff meeting updates and individual consultations;
- ensuring compliance with the Act by developing and implementing effective policies and guidelines;
- developing expertise through formal training opportunities, attending ATIP community events and conferences and establishing network contacts;
- representing the CFI on all official Access to Information business including liaison with the Information Commissioner and the Treasury Board Secretariat; and
- completing annual reports to Parliament, annual statistics and updates to the Info Source publications.

Delegation Orders

The President of CFI has delegated certain of his *Access to Information Act* responsibilities to the aforementioned ATIP officials. The specific level of authority delegated to each official is presented in the table found in Annex A.

Statistical Report and Interpretation

The CFI received one formal request under the ATIA in 2009-2010. Since 2009-2010 marks the third year that the CFI has been subject to the Act, and since the CFI has received only 8 requests during this 3 year period, we do not have sufficient data for meaningful trend analysis and level of activity comparison. Nevertheless, we are pleased to present a copy of the CFI statistical report which can be found in Annex B and to provide our comments about these statistics.

Our response to the request received was completed during this reporting period, thus no requests were carried forward, nor were there any requests outstanding from previous years. The request received was submitted by a private individual and was related to the 2008 Research Hospital Fund (RHF) results for Quebec universities. Our response to the request included partial disclosure where the information protected pertained to the mandatory exemption for personal information (Section 19 of ATIA). The CFI did not invoke any exclusions in 2008-2009

The CFI responded to the access request by providing copies of the responsive records to the requester. No fees were collected from the requesters except for the \$5 application fee.

Total costs associated with all aspects of administering the ATIA are estimated to be \$10,740. This includes salary costs of \$9,340 and administration costs of \$1,400. The majority of activities identified for estimating these costs include:

- the time spent by CFI ATIP office in responding to requests, administrative work, internal consultations, training and networking;
- the time spent by other CFI employees in consultations, orientation and training;
- ATIP consultations; and
- translation costs.

Employee resources associated with administering the Act for 2009-2010 is estimated to be 0.11 of a full-time equivalent.

Education and Training Activities

The CFI delivered an in-house training and awareness session specially focused for Programs staff who regularly deal with personal information found in research proposals and expert reviews . In addition, ATIP office personnel also participated in a number of community meetings.

Finally, in an effort to apply training in a practical manner, all ATIP activity, including responses to requests, was reviewed by the CFI ATIP consultant.

Access to Information Policies

The CFI did not introduce any significant new access to information policies during this reporting period. The ATIP staff is working on revisions to existing access to information statements on CFI's web site and in its program literature to ensure that these are up to date.

Complaints and Investigations

There was a complaint outstanding from 2008 related to a request made to CFI in 2007. The Office of the Information Commissioner reviewed the materials submitted by CFI in response to their investigation and in March 2010 the OIC officially concluded that CFI applied the exemptions properly and therefore the complaint was not substantiated.
